

what does one have to do to be left alone? At one point I was receiving up to 30 calls a day! I also should have the right to know who is calling me. Otherwise I don't answer any unidentified calls. I am still PAYING for call intercept and now out of area callers block their name, but not the phone number. I have spent money for Talking caller ID too! I am disabled with a weak heart. Everytime the phone rings, my chest tightens up! Is it really too much to ask that individuals be left alone? I am also very tired of SPAM via the Internet, that is always trying to sell me illegal software, drugs, or porno!

I beg of you, please end this nonsense now!

Thank you!
